

# Shower – Glass Tile Grout

## Product Information

**Enzyme Wizard Shower - Glass Tile Grout Cleaner is a concentrated formula specifically blended for removal of organic matter.**

- Safely removes hard water and calcium deposits from all surfaces.
- Has a rapid penetrating action that breaks down all organics by using an organic salt (Ca).
- Eliminates odours by destroying the source of the problem.
- Replaces the need of using bleach in a washroom / bathroom environment
- Removes Biofilm that bacteria feed on, leaving a safer environment.
- Gentle for Allergies, Asthma & skin irritations

### Features / Benefits

- Unique Multi function enzyme formula to break down all urine and organic matter inside showers and baths. Removes soap scum.
- Contains no caustic ingredients – won't damage surfaces.
- Formula includes Citric Acid that is designed to remove all calcium and hard water deposits in and around showers and baths.
- Specially designed formula adheres to shower surface by means of using a foaming spray head.
- Can be disposed of down drains, enzymes will carry on breaking down organic matter in drains.
- Can be diluted down to 10:1 and used as a general bathroom cleaner.

## SHOWER GLASS TILE GROUT

*Safely cleans and deodorises all*

**tiles, porcelain, grout, stainless steel, glass, showers, baths, hot tubs.**

The enzymes in our Shower - Glass Tile Grout Cleaner break down grime into its basic elements. Carbon, hydrogen and other elements readily integrate with the environment instead of polluting it. Even mineral buildups like calcium and lime simply fall apart when our enzymes break down the organic 'glue' that holds it in place. Plus, our enzymes completely remove odours, leaving the room smelling fresh and truly clean without strong fragrances.

**Complete Ingredients:** Water, Enzyme Wizard enzymes blended from plants, surfactant and non-essential fragrance.

**Material Data Sheet:** Available on web site.

## Enzymes - Nature's Toughest Cleaner

# Shower – Glass Tile Grout

## How to Use - General Cleaning :

1. Product comes as a ready to use formula.
2. Spray the inside of the shower or bath liberally with product.
3. Scrub the surface as one would do normally.
4. Rinse the surface.
5. Spray some of the Shower cleaner into the drain after cleaning so as to get extra cleaning action from the enzymes and this will also allow the fragrance to linger.

## How to Use - Heavy Duty cleaning :

1. For heavily soiled showers spray the surface and allow the product to sit on surface for 3-5 minutes.
2. Scrub surface with cloth or non-scratch pad
3. Rinse and spray some product onto surface to allow fragrance to linger.

## Important Information:

- Start with a new cloth / pad when changing over.
- If shower or bath is stained from the metals in the water it may take a little longer to work.
- Do not mix Shower cleaner with any bleach based products as this will de-activate the enzymes
- Can also be used around the bathroom as a heavy duty cleaner to remove scale and lime off glass, tiles and taps.
- Can be used on an all surfaces around the bathroom.
- The product comes ready to use and does not need to be diluted.
- Can be used with Poly Quat sanitiser
